

Equilibrium

2013

- 6 The following reaction is at equilibrium:

which conditions (A–E) would produce most of the product T?

	Temperature	Pressure	R	S	Catalyst
A	high	low	add	remove	present
B	low	high	add	add	absent
C	low	low	add	add	absent
D	high	high	remove	add	present
E	low	high	remove	remove	absent
